

OBJECT MARKER SPRING-LOADED POST HOLDER

Buffalo County, Nebraska

Contact:

Mike Mitchell
9730 Antelope Ave
Kearney, NE 68847

Problem Statement:

Inability to keep object markers (OM-3) up at bridge sites.

Discussion of Solution:

By use of this object marker spring-loaded post holder our problem has basically been eliminated. We have tested this for about a year now and it has worked great.

Labor, Equipment, & Materials Used:

Labor: 45 min. per unit

Equipment: welder, drill press & band saw

Materials: 2" sign post anchor; 1 3/4" slide in sign post; (1) adjustable spring; (1) 1 1/2" flat bar for pivot; misc. bolts.

Cost:

\$32.00 per unit

Savings & Benefits:

Fuel and labor has been the greatest savings by not having to go back to the same bridges week after week. In this area farm equipment is always getting bigger and the ability for them to safely cross the bridges without having to weave around our markers is a benefit for everyone.
